QUESTION UP

The Limekiln Club Adopts a Rule to Gag Debate and Stop Criticism.

(From Wednesday's dally.)

AR has been declared between the two political factions of the Territorial Senate and the result is as uncertain as is that of the conflict between Americans and Filipinos. Here we have the advantage, however, of being able to call time, and thirty-one days more of legislative deliberations will finish the local duello and the Governor will tell the lawmakers to go to-their homes. Senator White succeeded in amend-

ing rule 77, as predicted in our issue of yesterday, and now he can order his son-in-law, the sergeant-at-arms, to chuck out any Senator who might displease the great majority which meekly follows the ring of White's bell and says kokua to Kalue's bah!

The Republicans retaliated by disputing the right of Dr. Russel to be in the chair or in the Senate at all, because, it is claimed, he is not an American citizen. A very heated de-bate ensued and the Doctor left the chair three times, but was ordered back by Kalamakalani and White, until finally he got his dander up and insisted on Vice President Kuine taking the chair, while the pointfeal medicine mantook Kaine's seat. Then White arose and ordered his flock to table the resolution relating to the chizenship of the president of the Schate. It carried of course, Russel returned to the chair which Kaine rejuctantly left and to this hour it is unknown whether Russel is an American or not. He is most likely "nitsky," or he would have voluntered a statement. a statement.

G. R. CARTER, Senator Third District.

Senator Cecil Brown supported the committee of elections for a short while. Then came the tabling, while Senator Cecil Brown tack a chair on the versuida and lighted a fresh cigar. The reporters cannot hoar the intermittent language of Senator Cecil, and it could not be reported in a family paper, anyhow, but he cannot be blamed for using it.

The Senate tried to get down to busithe Senate tried to get down to business then, and Mr. Kanuha gave notice of his intention to introduce "An Act to provide and regulate the sending of American youths to the United States to be educated."

Then Senator White arose and presented his celebrated "chuck-themout" amendment to rule 77. It looks innocent enough when read, but there is a lot between the lines which a person not familiar with politics does not see. It reads:

"If any member shall conduct himself in a disorderly manner during any sessions of the Senate the president shall order such member to keep his seat and preserve the peace, and if he shall then persist in his disorderly conduct, the president shall have the power to order the sergentiatems to remove order the sergeant-at-arms to remove him from the Senate, and he shall not be permitted to take his seat during the remainder of the day's session except upon satisfactory pleage given by bim to the Senate of future good be-havior."

The original rule demands a two-thirds vote to "fire" a member, but by Senator White's amendment a sim-ple majority can "fire" a Senator out when he should chance to be in the way of the "whole push," represented by White

Then the Senate took a recess, and the wise men were really good when they met in the afternoon. It had been rumored that the Governor had signed that \$45,000 bill, and the chairs couldn't hold anything or anybody connected with the sack. Everybody was looking t wards the door, awaiting the appearance of a message, and after a short discussion, bill 26, relating to exemption of certain personal property from execution, etc., passed ing to exemption of votation personal property from execution, etc., passed the third reading. Carter and Achi had their say, of course, against the Act, which is most injurious to the commonwealth, but the Kalanokalani fac-

statement.

The actual business of the Senate uring the forenoon amounted to very title.

The clerk read communication from the House transmitting House Bill 17, witnesses and jurors to be under obligations to him. When he is not a senator he is a half-baked lawyer in some village on Maui.

The following message from the House was then received and read at the rate of a runaway automobile, by Secretary Caypless. It says:

I have the honor to inform your hon-rable body that the Senate Concurrent Resolution No. 2 was concurred in by the House of Representatives, Territo-ry of Hawaii, on the 25th day of March, A. D. 1901. Very respectfully, S. MEHEULA. Clerk House of Representatives.

For reasons unknown there was a general kick coming. Achi was again swinging authorities (bound in calf). Kalauckalani had his branding irons, and Tailor Kanuha his shears in a
